Notes:

1. 2006 and 2001 population based on 100% data

Statistics Canada is taking additional measures to protect the privacy of all Canadians and the confidentiality of the data they provide to us. Starting with the 2001 Census, some population counts are adjusted in order to ensure confidentiality.

2. Total private dwellings

For the 2006 Census, a private dwelling is defined as: A set of living quarters designed for or converted for human habitation in which a person or group of persons reside or could reside. In addition, a private dwelling must have a source of heat or power and must be an enclosed space that provides shelter from the elements, as evidenced by complete and enclosed walls and roof and by doors and windows that provide protection from wind, rain and snow.

3. Private dwellings occupied by usual residents

A separate set of living quarters which has a private entrance either directly from outside or from a common hall, lobby, vestibule or stairway leading to the outside, and in which a person or a group of persons live permanently.

4. Age - 100% data

Refers to the age at last birthday (as of the census reference date, May 16, 2006). This variable is derived from date of birth.

5. Median age

The median age is an age 'x', such that exactly one half of the population is older than 'x' and the other half is younger than 'x'.

6. Common-law status - 100% data

Refers to persons who live together as a couple but who are not legally married to each other. These persons can be of the opposite sex or of the same sex.

7. Legal marital status - 100% data

Refers to the legal conjugal status of a person.

8. Never legally married (single)

Persons who have never married (including all persons less than 15 years of age) and persons whose marriage has been annulled and who have not remarried.

9. Legally married (and not separated)

Persons whose spouse is living, unless the couple is separated or a divorce has been obtained. In 2006, legally married same-sex couples are included in this category.

10. Separated, but still legally married

Persons currently married, but who are no longer living with their spouse (for any reason other than illness or work) and have not obtained a divorce.

11. Divorced

Persons who have obtained a legal divorce and who have not remarried.

12. Widowed

Persons who have lost their spouse through death and who have not remarried.

13. Occupied private dwellings - 20 % sample data

'Occupied private dwellings' refers to a [private dwelling](#) in which a person or a group of persons are permanently residing. Also included are private dwellings whose usual residents are temporarily absent on Census Day.

14. Apartments, duplex - as a % of total occupied private dwellings

In 2006, improvements to the enumeration process and changes in structural type classification affect the historical comparability of the 'structural type of dwelling' variable. In 2006, 'apartment or flat in a duplex' replaces 'apartment or flat in a detached duplex' and includes duplexes attached to other dwellings or buildings. This is a change from the 2001 Census where duplexes attached to other dwellings or buildings were classified as an 'apartment in a building that has fewer than five storeys'.

15. Other dwellings - as a % of total occupied private dwellings

'Other occupied private dwellings' includes other single attached houses and movable dwellings such as mobile homes and other movable dwellings such as houseboats and railroad cars.

16. Number of owned dwellings

'Owned occupied private dwellings' refers to a [private dwelling](#) which is owned or being purchased by some member of the
